

# Introduction to Clinical Biochemistry and Isode Testing

## Melbourne

November 22-23rd 2014

Saturday 9.00- 5.30 pm

Sunday 9.00-1.00pm

Presented by

Dr Eric Pierotti DC DO Ch.D DIBAK

## The Program

This one and a half day seminar is designed to teach an easy to follow protocol of assessing clinical biochemistry. It is presented in a concise and easy to understand format for those practitioners who wish to address their patient's metabolic dysfunction to enhance their structural corrections.

The seminar will teach the manual muscle test as an indicator of functional neurology and the use of homeopathic isodes as markers of dysfunction body chemistry. Emphasis will be on;

- **Energy Production, assessment and correction**
- **Chemical and Heavy Metal toxicity**
- **Aerobic and anaerobic bacteria, fungi viruses and parasites**
- **Male and female hormonal dysfunction**
- **Lipid metabolism and inflammation**

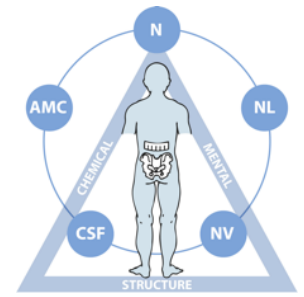

**NB:Numbers strictly restricted to maximum 20**
